Drone Reviews: Hitec Vektor 280 (SPONSORED BY HITEC)

▲ Holly Hansen | Inside RotorDrone, Race Gear Reviews | Comments

Hitec has released a new airframe with an aggressive look and some cool features. When you receive yours, you'll be happy to see that there is little to do to get it flying. Simply add your radio and receiver, set up the included flight controller, and install the included propellers. And yes, a charged battery helps!
